

PRESS RELEASE
FREE ENTRY FOR ALL

**Sustainable Housing Forum powers into Moss Vale
on Saturday 20th Feb.2010**

Get ready to be excited and informed when the Forum has its first Southern Highlands venue at
the

Moss Vale Services Club, Argyle St

We will be showcasing interactive exhibits of

Tanks and grey water systems	Sustainable home design & renovation
Solar hot water systems and Rebates	Energy saving lighting
Wind power	Free Sustainability home assessments
Straw bale house construction	Firewise homes with RFS
Hybrid cars & electric motorcycle	Organic Vegetables
Timber frame heritage construction	Photovoltaic electricity production
House Insulation	Vegetable gardening/permaculture
Aquaponics	Community gardens
Green home loan consulting	Thermal control glass

And be presenting lecture topics

10am	Renewable energy
11am	Vegetable Gardening & permaculture
12pm	Transition towns – community change in the post fossil fuel future
1pm	Water harvesting
2pm	Designing a Sustainable House
3pm	Solar hot water systems
4pm	Global Warming
5pm	Fire wise homes RFS

This lecture program covers subjects which help explain sustainability for the home and garden and also for our wider community.

All lecturers are qualified and experienced in their field and the presentations are people-friendly!

We are very pleased to announce the establishment of the

FX LARKIN SUSTAINABILITY SCHOLARSHIP

The scholarship will encourage meritorious students who meet the admission requirements for entry to UOW, with a Scholarship of \$3000 to help fund a student to undertake tertiary education in a subject linked to Sustainability.

The Scholarship Entry is through the construction of a built model for a sustainable home. It will include a written justification and description of the sustainable principles used.

We are inviting the local schools to include their students in this wonderful opportunity, but students of any school in the area may independently enter the competition for the scholarship.

Entry forms available

Deny Christian Co-Ordinator, Four seasons Sustainable Housing Forum Ph. 44 641 620
